## **Information Sheet – Bike Patagonia 2018-9**

Patagonia, where the scenery is astounding. Think of Queenstown and Central Otago then multiply it by 100 minus all the people. Spectacular!

We start the journey by flying Santiago to Temuco to visit Pucon with its spectacular setting on Lake Villarrica with stunning Mt Villarrica. Explore off road paths in National Parks and protected areas, surrounded by Lakes, Volcanoes, Forests, Rivers and Hot springs

After a relaxing stop, travel overland through to the Lakes District, admire crystal clear lakes, imposing glaciers and magnificent national parks, combined with the snow-capped peaks of the Andes, as well as, condors, flamingoes and other abundant bird life.

Follow Chile's Carretera Austral route. Though most of the trip involves gravel, winding curves and unpredictable weather, the rewards are enormous. It's no exaggeration to say that each kilometre offers picture-perfect vistas. Hike or bike in the spectacular Fitzroy National Park amongst some of the most gorgeous mountain scenery in the world. Stay in the cute mountain town of El Chalten.

The glacier of Perito Moreno in Los Glaciares National Park is awesome, it's the size of Buenos Aires, with vibrant hues of blue and green and sculptured icebergs of all sizes.

Next is the stunning Torres del Paine National Park where its granite pillars soar almost vertically above the Patagonian steppe with turquoise lakes, roaring rivers, creeping glaciers and dense forests. It's a bikers paradise. Enjoy 3 nights in the park at a private estancia, with some biking included.

The abundant wildlife: guanacos (from the camel family), foxes, condors, flamingoes, rheas, penguins, geese, ducks and many other birds, as well as, seals and beavers, all in their natural habitat, take people by surprise!
